9864253748

SUMMARY

Enthusiastic and motivated Computer Engineering student with a strong passion for software development and modern web technologies. Skilled in web development using MERN stack, and responsive design principles, with a keen interest in building intuitive, user friendly, and visually appealing web applications. Eager to continuously learn new programming languages, frameworks, and development practices while applying problem solving skills to real world projects. A collaborative, adaptable, and detail-oriented learner who thrives in dynamic environments and is committed to creating high quality digital solutions.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, React, JavaScript, Python

Database Tools: MySQL, PostgreSQL

Office Tools: Microsoft Word, Excel, PowerPoint

Soft Skills: Communication, Creativity, Teamwork, Time Management

Languages: Fluent in English and Nepali

PROJECT EXPERIENCE

1. Ropai AI: A crop recommending system

- Developed an AI based crop recommendation system to predict the most suitable crops using environmental and soil data.
- Applied machine learning techniques and integrated the model into a user-friendly web application for real time recommendations.

2. Minesweeper Game using C

- Developed a console-based Minesweeper game in C, implementing game logic, mine placement, and user interaction.
 - Applied programming concepts such as arrays, functions, loops, and conditional statements to create an interactive gameplay experience.
-

EDUCATION

Bachelor in Computer Engineering (BCT) | 4th Year (In Progress)

Kantipur Engineering College (Affiliated to Tribhuvan University, IOE), Dhapakhel, Lalitpur, Nepal

Relevant Coursework: Artificial Intelligence, Database Management Systems (DBMS), Data Structures & Algorithms, Operating Systems, Object-Oriented Analysis & Design.

INTERESTS & FOCUS AREAS

- Web Development : Enthusiastic about developing modern, responsive web applications and continuously exploring new frameworks, tools, frontend and backend technologies.
 - Artificial Intelligence & Machine Learning: Passionate about exploring and implementing new machine learning models, optimizing their performance, and applying them to intelligent systems.
-
